

Ignite the Scientist in EVERY Student!

FOSStering Access and Equity in Science through ELD

Join us for a powerful day of learning about integrating the California ELD Standards through hands-on science investigations.

First, Ken Wesson, international science education expert, addresses the neuroscience behind language acquisition and how first-hand experiences in science provide an effective and efficient context for supporting the language needs of ALL students. Through humorous stories, demonstrations, and activities, you're sure to walk away inspired to learn more.

In the afternoon, join Claudio Vargas, consultant and former Science Coordinator for Oakland Unified School District, to learn easy-to-use strategies for Designated and Integrated ELD that you can easily incorporate into every science lesson. Ignite the Scientist in all of your students!

Ignite the Scientist in Every Student!

Tuesday, June 18th, 2019
