

Youth Assistance Directory

Merced County Office of Education

Steve M. Tietjen, Ed.D.

Merced County Superintendent of Schools

Introduction

This Resource Directory is designed to be used by young people ages 13 - 24 who are experiencing homelessness. It provides information about various agencies in the community who provide services you may need.

Homelessness does not always mean living on the street. Anyone without a regular, stable place to spend the night can be considered homeless. That includes anyone living in a vehicle, an abandoned building, a motel, or even crashing on a friend or family member's couch. If you are facing any of these situations, we hope that this Directory can connect you with help you might need.

The best way to access services and get assistance if you are homeless is to stay in school. By law, your public school must provide you with assistance if you are homeless. Your school must help you stay enrolled and be successful. Every school district has a Homeless Liaison who is in charge of making sure you get the services you need. Staying in school is one of the best ways to ensure your success in life. If you are not in the public school system, there are still many educational programs in the community that can help you achieve your goals and support you while you do so. Please see the "Education" section of the Directory for more information.

For questions or comments about this Directory, please contact:
