What is an Induction Program?

The Merced County Office of Education Teacher Induction Program (TIP) is a two-year, individualized, job embedded system of mentoring, support and professional learning that begins in the teacher’s first year of teaching. All holders of State Bill 2042 preliminary credentials must clear their credentials by participating in an Induction Program. TIP is structured to assist new teachers in the demonstration and application of the knowledge and skills acquired during the teacher preparation experience.

When teachers enroll in TIP they are matched with an experienced mentor within the first 30 days of the program. These matches are made based on credentials held and grade level/or subject area. Once the school year starts Candidates and their mentor will meet with the Candidate's administrator in a Triad meeting to discuss the areas of focus on the ILP. At the Kick-off meeting (within 60 days of the start of school) an Individual Learning Plan (ILP) is created which guides the work of the candidate throughout the program. Each year, candidates and mentors are required to log a minimum of 40 hours of collaboration around the ILP and other “just in time” needs that the teacher may have. Candidates select the area of focus for their ILP by focusing on the teaching placement, administrative recommendation, knowledge from preservice experiences and personal areas of strength and growth. Although site administration is involved in the creation of the ILP the induction program is solely for the professional growth and development of the Teacher Candidate and is NOT for evaluation for employment.

MCOE Teacher Induction Program Design

The MCOE Teacher Induction Program (TIP) is designed to meet the individual needs of each credential candidate and to support them in growing as a professional educator. The program will provide the opportunity for preliminary credential holders to complete the requirements for their Clear Teaching Credential. Components of our local program design include:

- Candidate Development of an Individual Learning Plan (ILP) within 60 days of the start of the program based on needs determined by the teacher and program provider, in consultation with the site administrator and guided by the Individual Development Plan that is completed with the preliminary program
- Weekly mentoring to credential candidate by exemplary veteran teachers (mentors) who are trained in coaching and mentoring, goal setting, use of appropriate mentoring instruments, best practices in adult learning, and the California Standards for the Teaching Profession (CSTP)
- Mentoring will include both “just in time’ support for candidates, in accordance with the ILP, along with longer-term guidance to promote enduring professional skills
- Facilitation of candidate growth and development through modeling, guided reflection on practice, and feedback on classroom instruction
- Connecting candidate with available resources to support their professional growth and accomplishment of the ILP
- Utilization of a locally created, formative assessment system as the basis for credential candidates to identify strengths and areas for professional growth based on the CSTP
- Professional learning based on the individual needs of credential candidates as identified in their ILP
PROGRAM GOALS

The program's goals are to provide a smooth transition into the complex responsibilities of teaching and to:

• Develop teachers’ capacity as defined in the California Standards for the Teaching Profession (CSTP)
• Offer preliminary credentialed teachers the opportunity to meet requirements for a California Clear Teaching Credential

Guidelines for
Mentor and Candidate Reassignment

Vital to the success of the program is the trusting relationship of the Candidate and the Mentor. If that relationship does not develop properly, a change may be necessary. The Mentor or Candidate must initiate the request for change in a face-to-face meeting with the District Contact or Induction Director. The issues will be thoroughly investigated and discussed with the District Contact and/or Induction Director before any recommendation is made. If a valid reason for change is demonstrated at the meeting, the following process is used:

- A meeting with the Candidate, Mentor, District Contact or Induction Director to brainstorm ways to resolve the concerns. Notes from the meeting are filed in the Candidate’s record at the program office; and
- The Induction Director facilitates changes in assignments when conflicts cannot be resolved.

Request for Mentor/Candidate Reassignment

The above policy and procedures were carefully considered and the following reassignment has been recommended and approved by the Merced County Office of Education Teacher Induction Program:
