This three-day workshop will provide grade 6-8 teachers with a theoretical understanding of expository reading and writing along with practical strategies to teach close reading, argumentative writing, and critical thinking skills through the unit modules designed for grades 6-8. Literacy development in ERWC is aligned to the California Standards and provides curricular support to implement the standards in ELA toward college readiness. Participants will receive the ERWC course materials along with access to online resources for use in their classrooms.
