Overview of Session

Advanced Placement will be undergoing significant changes for the 2019-20 school year. There will be a significant increase in resources to support students and teachers with exams and ease the time commitment for AP coordinators. To maximize the benefits to students and teachers in AP courses, several actions are required at the start of the 2019-20 school year to unlock the online benefits and College Board encourages you to begin preparing this academic year. This is an interactive opportunity to hear about the expansion of resources for AP, what to prepare for now, and connect with your local College Board manager. This session is well suited for county and district leaders, AP coordinators, AP teachers, or anyone who works with AP!
