STEM Fair

Events for Students of All Ages - March 6, 2019 - UC Merced Joseph E. Gallo Recreation Center

Science Fair (Grades 5-10)

Following the guidelines provided, individuals or small teams (2-3 students) may present a Science Fair project to be submitted for judging. Some winning projects may qualify for the California State Science Fair. MCOE will pay a portion of the costs to attend and represent Merced County at the California State Science Fair. (Only grades 6-8 eligible for CSSF). Awards will be given to 1st/2nd/3rd for each category for each grade at the Awards Ceremony. \$50 per project

Exhibition/Maker Space (All Grades)

Schools and Districts are invited to display projects your group has been working on or create an interactive space for fair visitors to engage in make and take activities. Sponsors, local businesses, and local STEM groups are also invited to create a maker space or display important STEM related information. \$20 per table

Viewing (All Grades)

Interested in expanding STEM into your classroom? Bring your class for a field trip to learn from the student scientists about their projects and experience the Exhibition and Maker Space. Viewing times are also open to families and other groups.
